

# Shabby Shed News

*For the Shabby Chic Shopper*

June 21, 2011

Vol. 1 Issue 4

It's finally here! After a long, cold winter and a very cool spring, the calendar tells us that summer is finally here. Let's hope that Mother Nature realizes it too and brings warm temperatures and sunshine to northern Wisconsin. We can tell that people have summer on their minds because the outdoor yard and garden art has been disappearing quickly as well as the (no-tarnish Peruvian ankle bracelets). All these items are just a reminder that summer has arrived and its time to celebrate! Don't miss out on the opportunity to pick up these items before they disappear. It's best to be one of those customers waiting for the doors to open and get the best of the best. Our loyal followers never miss an opening.

Tell your friends & family how easy we are to find! We are less than 5 miles from the Holiday Gas Station in Itasca. We all think nothing of driving 5 miles to go to our favorite shopping destination. The Shabby Shed has a fun selection of country chic, refurbished, handmade and unique items. One of the many reasons why the Shabby Shed will continue to do so well is each vendor brings a different craft or interest to

the table which brings forth a great mix of items for our customers. Watch our [Facebook page](#) and if you see something that you just have to have, email Lorraine at [shabbyshed5@aol.com](mailto:shabbyshed5@aol.com) and there maybe an opportunity for you to schedule a private shopping date. We cannot be open everyday, but we want to be flexible for our customer's and provide the great customer service you would expect. Forward this newsletter or suggest the [Shabby Shed Facebook page](#). Make sure you mention how easy it is to find us at [7107 E State Road 13 in South Range](#).

## Vendor Profiles

**Mike Peterson** has been refinishing and building furniture for approximately 35 years! His talent for woodworking began in high school where his teachers recognized he was a natural artist with a piece of wood. He also took a job in high school refinishing furniture by hand and his boss quickly promoted him to manager. Once graduated from high school, Mike began his career at Fraser Shipyards where he still works today, so his wood-working and refinishing have become his night time habit. Mike's workshop is a popular hang out for many guys and everyone knows who to call when they need something repaired. Rarely using a pattern, Mike can look at a picture or at a piece and usually replicate it, his reproduction work is remarkable. Family and friends look forward to getting a gift from the Peterson's because they all love his craftsmanship. When asked what his favorite piece was to create, his response was quick ... the cradle I made for my grandchildren. Each one of the Peterson's four grandchildren have all slept in the cradle Papa made, it is his dream that the cradle will be handed down to great grandchildren and on and on, becoming an heirloom.
